To whom it may concern:

SYM is disappointed with U.S. scooters sales currently; however, we understand the U.S. economic situation is not good and scooters sales for all OEM's/Distributors have not met expectations over the past 18 months.

SYM supports Carter 100% and our relationship is very strong and we look forward to continuing our work with Carter in fighting for market share and ultimately becoming the number one scooter brand in the U.S. market

Best regards,

**Eddie Lu
Manager,
Overseas Marketing Division**
